
Les Mills Grit Series Torrent 73

Ch. VII.] ETNA. 481

to in the sequel, although it can convey no idea of the picturesque grandeur of the scene.

The great lava-currents of 1819 and 1811 are seen pouring down from the higher parts of the valley, over-running the forests of the great plain, and rising up in the foreground on the left with a rugged surface, on which many hillocks and depressions appear, such as often characterize a lava-current immediately after its consolidation.

The small cone, No. 7., was formed in 1811, and was still smoking when I saw it in 1828. The other small volcano to the left, from which vapour is issuing, was I believe one of those formed in 1819.

The following are the names of some of the other points indicated in the sketch:—

1. Montagnuolo. 2. Torre del Filosofo. 3. Highest cone. 4. Lepra. 5. Finocchio. 6. Capra. 7. Cone of 1811. 8. Cima del Asino. 9. Musara. 10. Zocolaro. 11. Rocca di Calanna.

Description of Plate IX.—The second view (Pl. IX.) represents the same valley as seen from above, or looking directly down the Val del Bove, from the summit of the principal crater formed in 1819. I am unable to point out the precise spot which this crater would occupy in the view represented in Plate VIII.; but I conceive that it would appear in the face of the great precipice, near which the smoke issuing from the cone No. 7. is made to terminate. There are many ledges of rock on the face of that precipice where eruptions have occurred.

The circular form of the Val del Bove is well shown in this view (Pl. IX.). To the right and left are the lofty precipices which form the southern and northern sides of the great valley, and are intersected by dike

. My husband ate this but he didn't like it, but he said it was good. KidsNoBore: After you made this recipe, did your friends and family appreciate that you actually made a recipe that wasn't- . . or was it awful? The recipe I tried! 13 item. . . My husband ate this but he didn't like it, but he said it was good. My husband is a fan of the Bully Sticks. He has since made these and they are really good.Paint Paint is in a variety of forms, and will come in different colors, types and finishes. It's not just a personal improvement, it can also be a functional improvement to your home. We'll make sure that you get exactly what you want. We will custom blend paint for you for the project you have in mind and the kind of paint finish that you prefer. A few of the paint choices we have available are: Primer, which is used to seal the surface of a surface before applying a new color, and Latex, which is a non-toxic, water based paint with high durability. You can come in to our store and see our selection of paints and

have an idea of what paint will work best for the project you're planning. Q: Iterate over ListView Items with TextBox from StringCollection I'm trying to iterate over a ListView Items that contain a TextBox so that I can validate the information that's being typed in each TextBox. I have an array of strings that contains the validation rules for each TextBox on the screen. For instance: textbox1_validationRules = "Name is required, Last name is required, Password is required." In my ViewModel, I'm able to use a for loop to iterate over the ListView and set a property of the ListView.Items, for instance, foreach (ListViewItem item in listView.Items) { item.SubItems[0].Text = validationRules[i]; //Validation rules i++; } The problem with this is that the TextBox in each item is labeled as Name, LastName, etc. 82157476af
